#### Description ▼

Edge banding machine KAG 4

- Ideal for mobile use in the workshop, on assembly, fairs, etc.
- For use with molded parts and straight workpieces
- With digital temperature control and continuous control of temperature and feed rate
- For PVC and ABS edges of 0.4 to 3.0 mm thickness
- Minimum inner radius of the workpiece is 25 mm
- Easy and quick setup
- For corner joints, the edges can be pre-glued
- With hot melt adhesive basin
- Short warm-up time - very good heat insulation

#### Edge milling cutter KF 6

- For precise machining of various materials such as solid wood, PVC or melamine
- With durable and powerful engine
- Ergonomic handle for stable and comfortable guidance of the machine
- Milling guard with integrated suction port rotatable through 180 ° for maximum protection of the user and clean and dust-free working
- Milling head exchangeable
- With scale adjustable in 0.05 mm increments
- Milling guard adapts to the contour guidance of the workpiece, thus allowing trouble-free guidance of the milling cutter
- With integrated stop for corner rounding

#### Edge trimmer KKG 30

- For separating plastic or veneer edgebands
- For flush and rectangular cutting of protruding start or end pieces or abutting edges

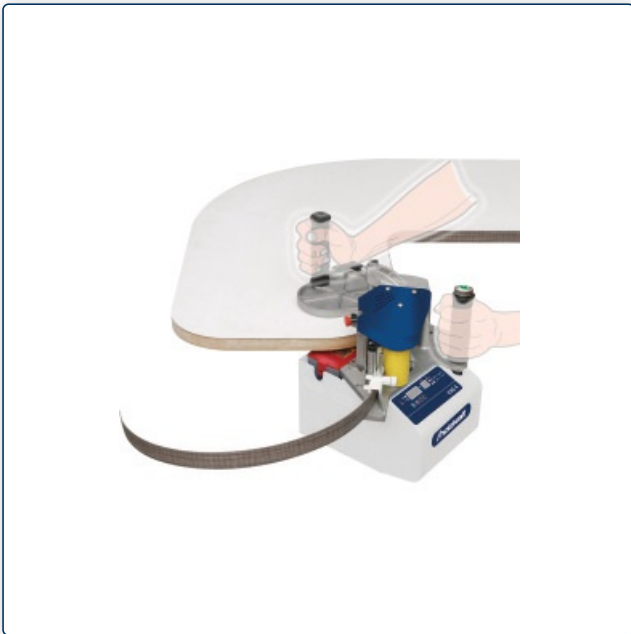

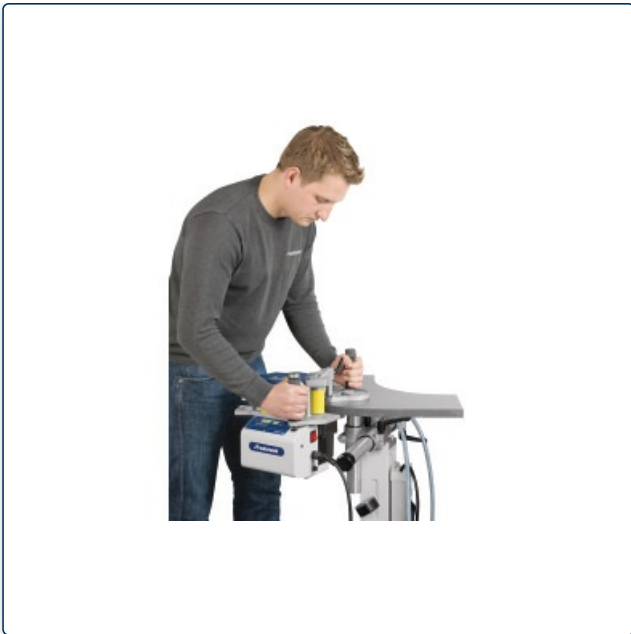

#### Vacuum clamping set VK 1

- Ideal for use in edge banding and edge milling, even on large workpieces
- Easy and quick assembly and disassembly of the vacuum clamps and the workpiece by quick release levers
- The secure fixation of the workpiece by the vacuum clamps ensures ideal conditions for processing the edges on the top and bottom sides

### Media informations

With digital temperature control and infinitely adjustable feed speed

Lightweight and handy, for use with molded parts and straight workpieces

Convenient and easy transport thanks to mobile trolley

One bottle of adhesive

Edge trimming machine KKG 30

Plastic case can be fastened on trolley

Edge milling cutter KF 6

Vacuum clamping set VK 1

### Technical data ▼

General features			
Edge thickness	0,4 – 3,0 mm	Edge width	10,0 – 65,0 mm
Operating temperature	Stage1: 120 - 200 / Stage 2: 80 - 155 °C	Feed speed	2 – 6 m/min
Glue container filling quantity	400 ml		
Dimensions and weights			
Length (product) approx.	250 mm	Width/depth (product) approx.	190 mm
Height (product) approx.	350 mm	Net weight approx.	8.5 kg
Drive output			
Absorbed power drive motor	0.855 kW		
Electrical Data			
Supply voltage	230 V	Mains frequency	50 Hz
