**Description** ▼

- Suitable for various blasting materials, e.g. quartz, glass beads, plastic beads, etc.
- Ideal for cleaning, derusting or paint removal
- High-quality latex work gloves are firmly attached to the housing
- Optimum visibility thanks to protective screen with replaceable glass protection film
- Dust-free working thanks to all-round seals on the lid and door frame
- Sturdy storage grid allows workpieces to be placed inside the cabin
- With drain opening for changing the blasting material
- Suction pipe for the blasting material attached to the bottom of the collection container
- No laborious turning of workpieces thanks to door opening on both sides via gas pressure springs
- Integrated extraction system with replaceable air filter for optimum visibility
- Blasting gun installed on both sides with foot pedal operation for fast and efficient sandblasting
- Four fluorescent tubes (230 V), in separate housing with protective screen and replaceable protective film for a well-lit work area
- Two separate switches for extraction and cabin lighting
- Regulation of the working pressure via pressure regulator with pressure gauge
- Cross struts on the feet enable easy transportation with a pallet truck
- Pneumatic safety cut-out when the door is opened
